Sleigh Bells Aren't The Only Thing Ringing

We Can Help With That!

Tinnitus can be frustrating, to say the least, but managing your symptoms doesn't have to be.

At Wake Audiology, we are here to help you hear life, even through the tinnitus!

According to the American Tinnitus Association, approximately 90% of patients with tinnitus have some degree of hearing loss.

Getting your hearing tested is a great first step in managing your tinnitus.

Treating your hearing loss can be a huge factor in managing tinnitus. The simple act of wearing your hearing aids can assist with tinnitus symptoms, and many hearing aids can be programmed to include a tinnitus management setting.

Did you know that stress can contribute to your tinnitus?

Managing stress can be hard any time of the year, but the holidays can make it even more difficult. With all the hustle and bustle, preparations for family gatherings, and everything else going on, it's important to make time for yourself and to manage your stress. Try enjoying a nice walk in the cooler weather, spend some time on your favorite hobby, or relax inside with a cozy blanket and watch the leaves fall. Whatever you do to manage your stress, it will not only help reduce tinnitus symptoms, but the rest of your nervous system will thank you as well!

Is your tinnitus keeping you up at night?

Try sleeping with a fan on, use a noise machine, or try an app that's designed to help you sleep better, like Endel, Calm, or Noise Machine apps that will let you experiment with different types of noise, such as Brownian noise, pink noise, white noise, and more!

Schedule an appointment with one of our Audiologists to get your hearing tested, and to discuss treatment options that may work for you. Let us help you hear life!

Wellness Plan Updates

Hearing Aid Wellness Program Updates for 2025

We are pleased to offer our annual service plan to patients who are no longer under a service agreement. This plan covers the cost of your appointments and supplies. It includes unlimited hearing aid checks, programming visits, troubleshooting, loaner devices, hearing aid supplies (tubing, domes and wax guards), and batteries, if applicable, for 1 year.

Beginning January 1, 2025, the new rate for this program will be \$465. As a reminder, if you are currently enrolled in the hearing aid wellness plan at a previous rate, you are locked in at that rate when you renew, as long as it does not expire.

If you are not currently enrolled, we encourage you to do so before the new rates take effect on January 1st. Give our office a call, and we will be happy to answer any questions you may have!

Please note: not included in the plan are diagnostic office visits, hearing evaluations, and other diagnostic testing, as these services may be billed to insurance. The fee for a hearing evaluation in 2025 will be \$145 consisting of a \$65 office visit and \$80 evaluation fee.

Please see our new Hearing Aid Wellness brochures for a full list of pricing.

Thank you for trusting us with your hearing care.

Hear What Our Patients Are Saying...

"Wake Audiology has the most caring and compassionate employees from the front desk to the doctors. Solutions and suggestions other practices did not offer. They take the time to listen and you can feel they really care about you. I could not be happier to have found this place! What a hidden gem!" - TB

"Wake Audiology is simply the best. The staff at Wake was very helpful. The Doctor did an excellent job of answering all my questions and concerns. I would like to give them 6 STARS!!!!!!!" - DM

"The level of care and professionalism shown is top-tier. After leaving the office I had questions that I didn't think of while there. Dr Dorsey took the time to call me back and answer all questions and address concerns. Great customer service!" - SC
